

## Significant Changes to the International Building Code 2015 Edition

### Description

This seminar overviews the changes from the 2012 to the 2015 IBC®. It identifies changes in organization, code requirements and the applicability of these requirements to design, plan review and inspection of buildings. This course is aligned with the book Significant Changes to the International Building Code 2015 Edition. This book is used during the seminar and will serve as a reference after the seminar.

### Goal

The goal of this seminar is to familiarize architects, building officials, fire officials, plans examiners, inspectors, design professionals, contractors, and others in the building safety industry with many of the important changes in the 2015 International Building Code® (IBC®). This seminar is designed to assist code users in identifying the specific code changes that have occurred and to assist in understanding the reason behind the change.

Duration: 1 day

CEUs: 0.6

Contact Hours: 6

### Objectives

Upon completion of this seminar, participants will be better able to:

- Identify the most significant differences between the 2012 IBC and the 2015 IBC.
- Explain the differences between the current and previous edition.
- Identify key changes in organization and code requirements.
- Identify the applicability of design, plan review and inspection requirements.
